Connect up to 3 devices for easy multitasking

Key Selling Point

Easy To Carry

ASUS SmartO Mouse with a built-in elastic rope at the front-end of the mouse is specifically designed for grab and go.

Tracks On Any Surface, Including Glass

SmartO Mouse features the 100% PTFE feet and premium sensor for extremely smooth, glossy surfaces and DPI up to 4200 that can offer precise, seamless control certainly be used anywhere else, even on glass.

Durable Click Buttons & Power-saving

The buttons of the ASUS SmartO feature switches with 10-million-click lifespans that could last for more than five years. The ASUS SmartO Mouse features an exclusive power-saving technology, allowing for battery life of up to 1 year.

Customizable Functions In Armoury Crate

ASUS SmartO Mouse includes intuitive software that allows you to customize the way it works and monitor vital statistics, such as gesture setting, battery life, DPI and polling rate.

Dual Mode Connectivity

The ASUS SmartO Mouse supports both 2.4 GHz (with the included USB dongle) and Bluetooth® connection modes, which can connect up to three different devices.

Uniquely portable

Modern life is busy, and it's all too easy to fumble and drop stuff when rushing around the office. That's why we designed ASUS SmartO Mouse with a built-in carrying band. This elasticated loop hooks onto a finger and ensures that ASUS SmartO Mouse stays secure as you wander to your next workspace. It's simple but effective — a small boost for everyday mobility.

Tracks on any surface, including glass

With a premium 4,200 DPI sensor it's able to track accurately on almost any worktop. It also works just great on glossy surfaces, from a polished desk to a granite conference table, so you're assured precise, seamless control wherever you need to work. 100% PTFE mouse feet, ensuring a smooth glide over a wide range of surfaces, including glass* — delivering the accuracy and precision you need.

* Minimum 4 mm glass thickness

Durability you can count on

Long-lasting

1-year

*Battery life**

A year of uninterrupted use

ASUS SmartO Mouse practically eliminates battery-life concerns, with integrated power-saving technology that ensures it'll keep going for up to one year on a single AA cell. So, you're free to focus on your tasks without interruption.

Durable up to

10-million

clicks

Superior micro switches

The switches used in ASUS SmartO Mouse are engineered to last, with a 10-million-click lifespan providing up to 3x the longevity of traditional office mice.

* Battery life may vary based on user habits and computing conditions.

Ergonomic design

ASUS SmartO Mouse exudes executive style and is finished in Secret Black. It is engineered with a strong, tactile aluminum scroll wheel that's fit for business, and has two side buttons to extend your control. Right below these is a thumb rest that provides a comfortable bed for your opposable digit and allows ASUS SmartO Mouse to cast an elegant silhouette.

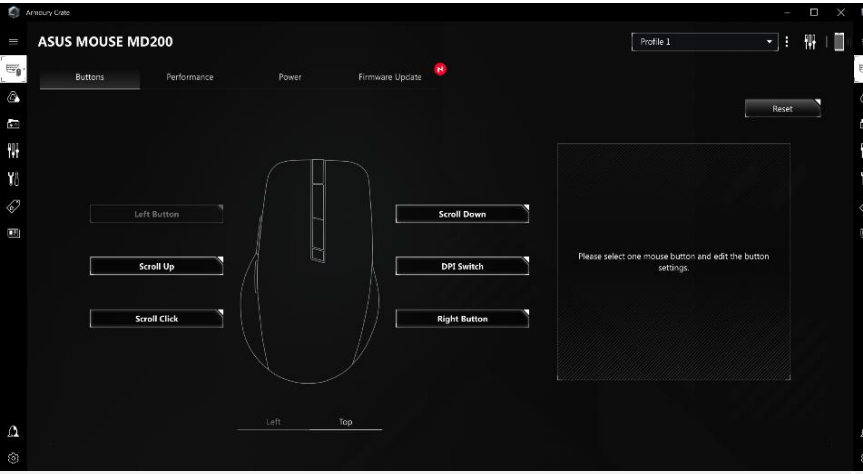
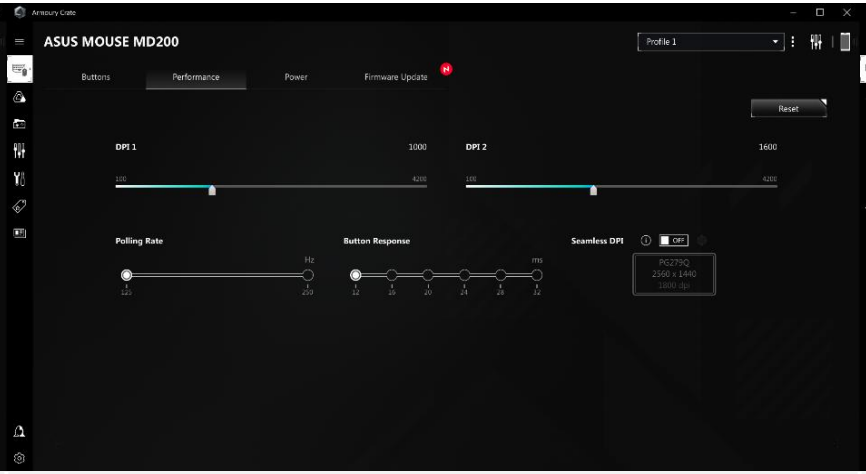
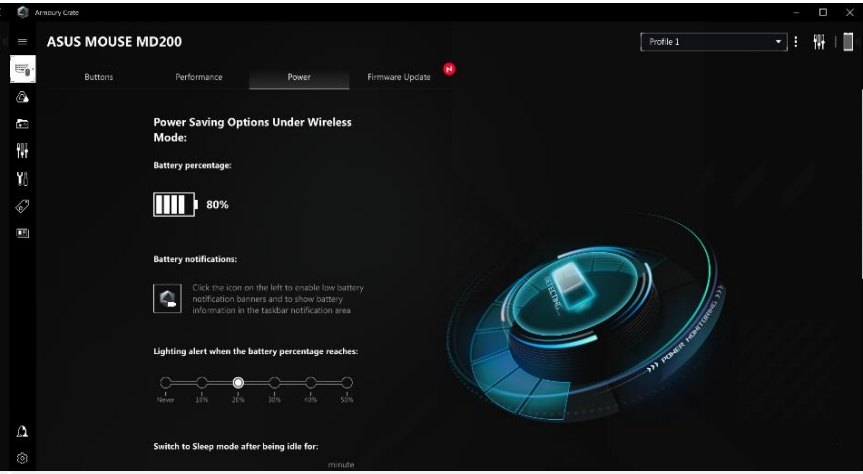
Customizable functions in Armoury Crate

ASUS SmartO Mouse includes intuitive software that allows you to customize the way it works and monitor vital statistics, such as battery life, DPI and polling rate. With six customizable buttons, you can configure ASUS SmartO Mouse to maximize your workflow, and easily make tracking accuracy and polling-rate adjustments in the software functions page.







6 Customizable Buttons

The ASUS SmartO Mouse features a total of six customizable buttons. Users can set up each button function as a shortcut to adjust DPI, polling rate, or to check battery status.

Seamless DPI Setting

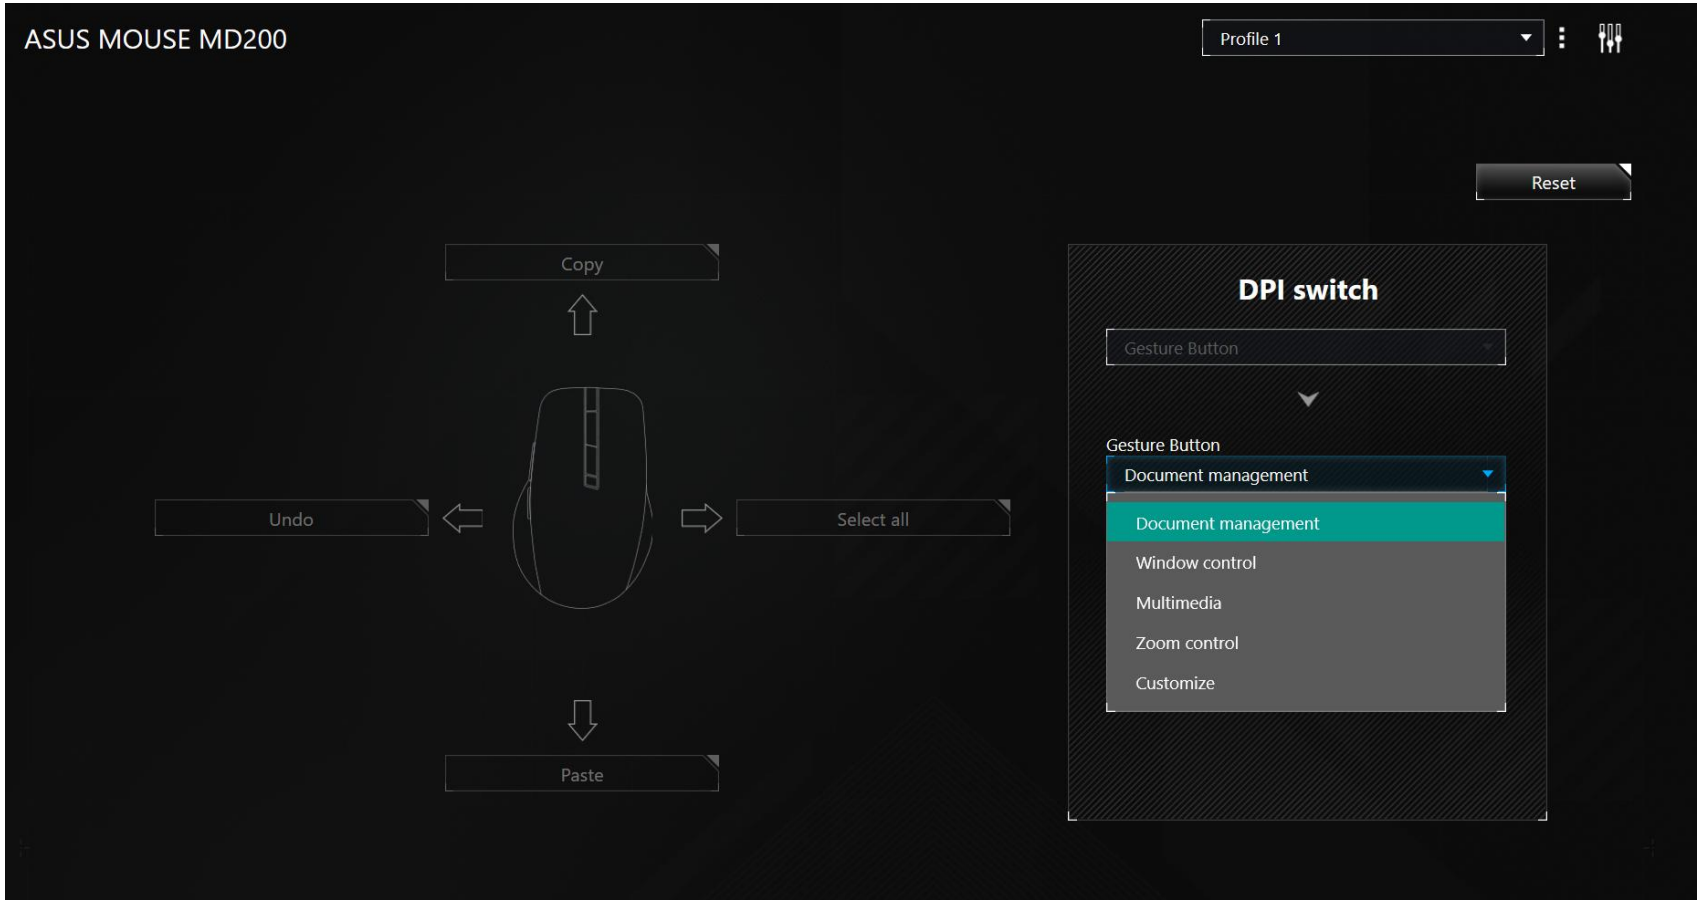
The MD200 also provides seamless DPI options to enhance user experiences for multiscreen users, allowing them to directly set the DPI for each display. This ensures that the speed of the mouse cursor will not drop sharply between displays, providing a seamless multi-display experience.

Power Setting

Users can check the current battery life of the mouse via the Power panel in Armoury Crate. By default, when mouse battery life is under 20%, the red indicator light on the middle button will start to blink. The timing of blink can be customized by users themselves, indicating when the battery charge reaches 10%, 20%, 30%, 40% or 50%.

Gesture function in Armoury Crate

Users can trigger the corresponding gesture function by holding down the gesture button and dragging the mouse in four directions: up, down, left, or right. A total of five buttons—right-click, scroll click, DPI switch, forward, and backward—can be set as gesture functions. The gesture function is mainly divided into two categories, including Preset function and Full-custom function.



Gesture function in Armoury Crate

Preset function

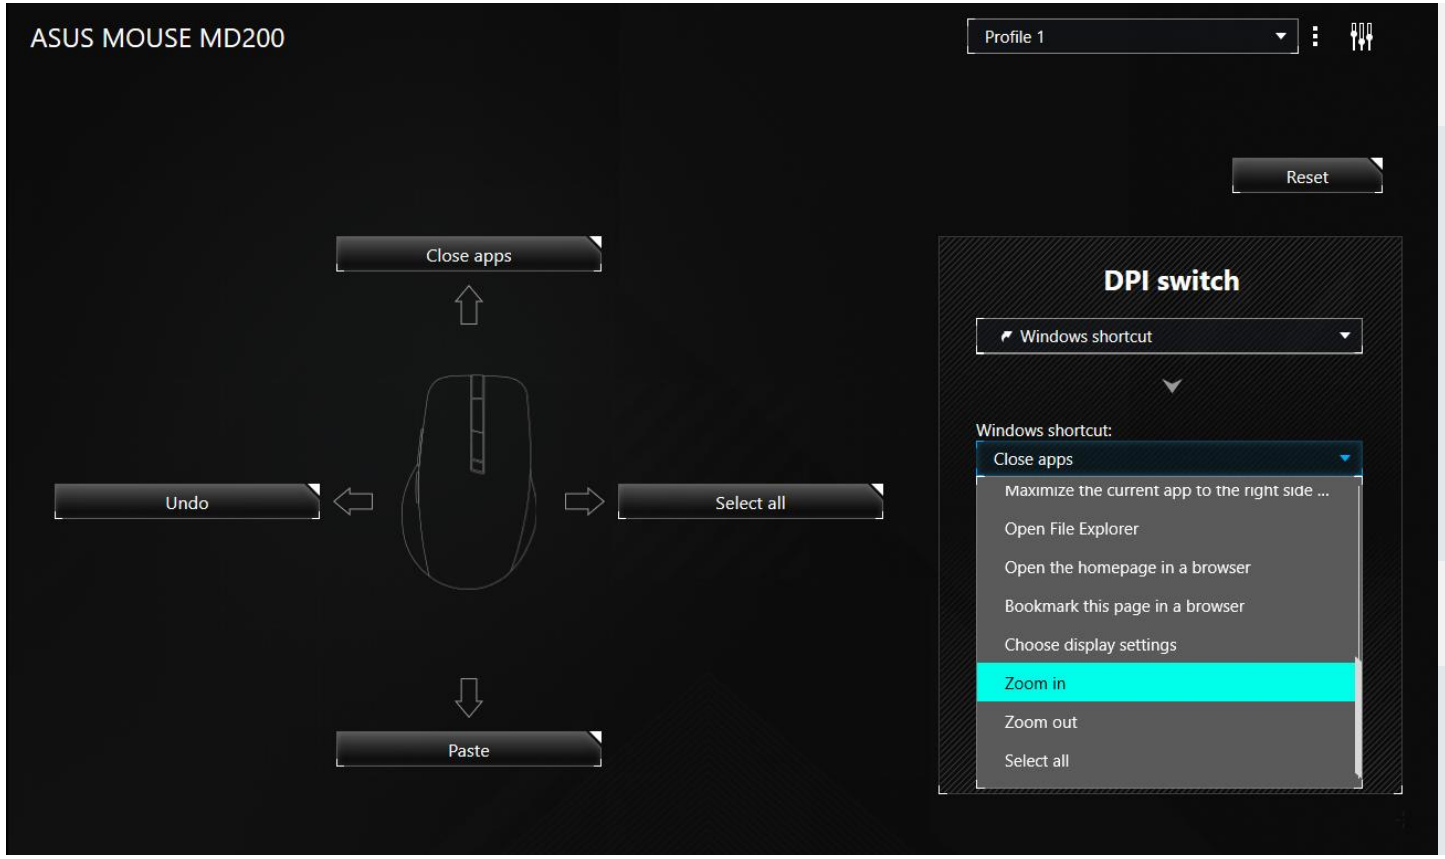
Provide prepackaged function sets, including Document management, Window control, Multimedia, Zoom control.
The prepackaged functions are designed for common mouse usage scenarios, which is beneficial for users to switch freely in different situations.

Document Management	**Window Control**
Copy, Paste, Undo, Select All	Windows maximize, window minimize, forward (next page), back (previous page)
Multimedia	**Zoom Control**
Volume up, volume down, previous track, next track	Zoom in, zoom out, Scroll left, Scroll right

Gesture function in Armoury Crate

Full-custom function

Customize functions in four directions for users, improve the richness of various function combinations, and allow users to quickly adapt to changing usage scenarios



Single trigger

Copy / Paste On / Screenshot / Select All / Window Maximized / Window Minimized / Forward (Previous Page) / Back (Next Page) / Previous Track / Next Track / Pause / Play / DPI Switch / Keyboard Function (Keyboard Single Key Or Key Combination) / Macro / Mute Speaker / Mute Microphone / Stop / Close Apps / Show Desktop / Cut / Undo / Switch Display / Window Snap To Left / Window Snap To Right / Start Button / File Explorer / Open Homepage / Bookmarks / Switch Bluetooth Devices / Cursor Tracker / Launch Armoury Crate / Preset Input Text

Continuous trigger

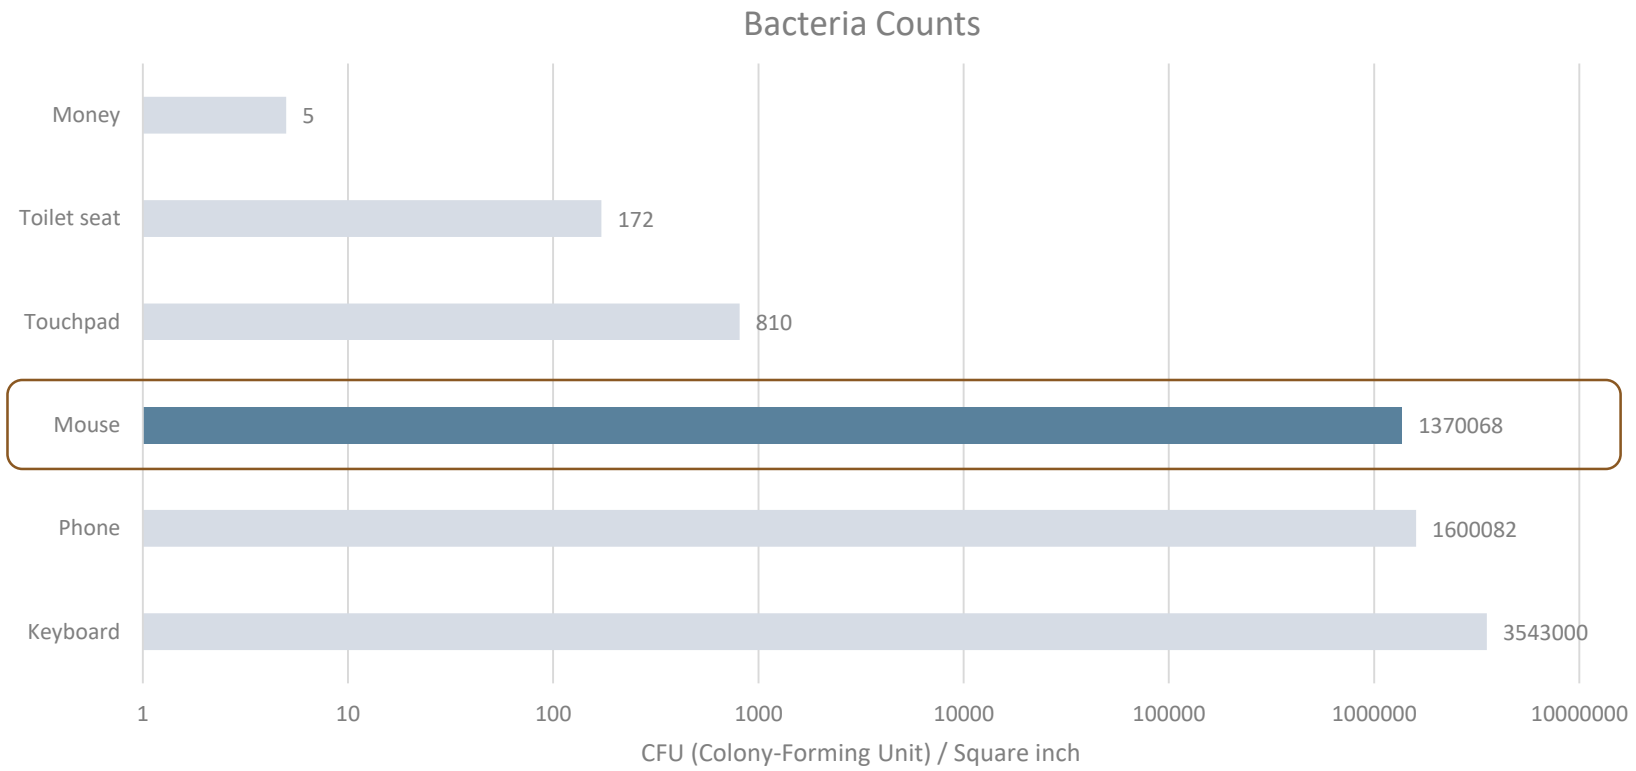
Pan (Including Up, Down, Left, Right) / Volume Up / Volume Down / Fast Forward / Rewind / Enlarge / Zoom Out / Scroll Up / Scroll Down / Scroll Left / Scroll Right / Application Switch

Antibacterial Guard

COVID-19 has made Hygiene a big deal. The number of bacteria on the Mouse is 40,000 times more than the number of bacteria on the toilet handle.

40,000x

*More bacteria compared to toilet**



Antibacterial Guard

The surface of ASUS SmartO Mouse is treated with the new ASUS Antibacterial Guard. This special treatment has been scientifically proven to inhibit bacterial growth by over 99% over a 24-hour period to potentially reduce the spread of harmful bacteria via contact.

ISO22196

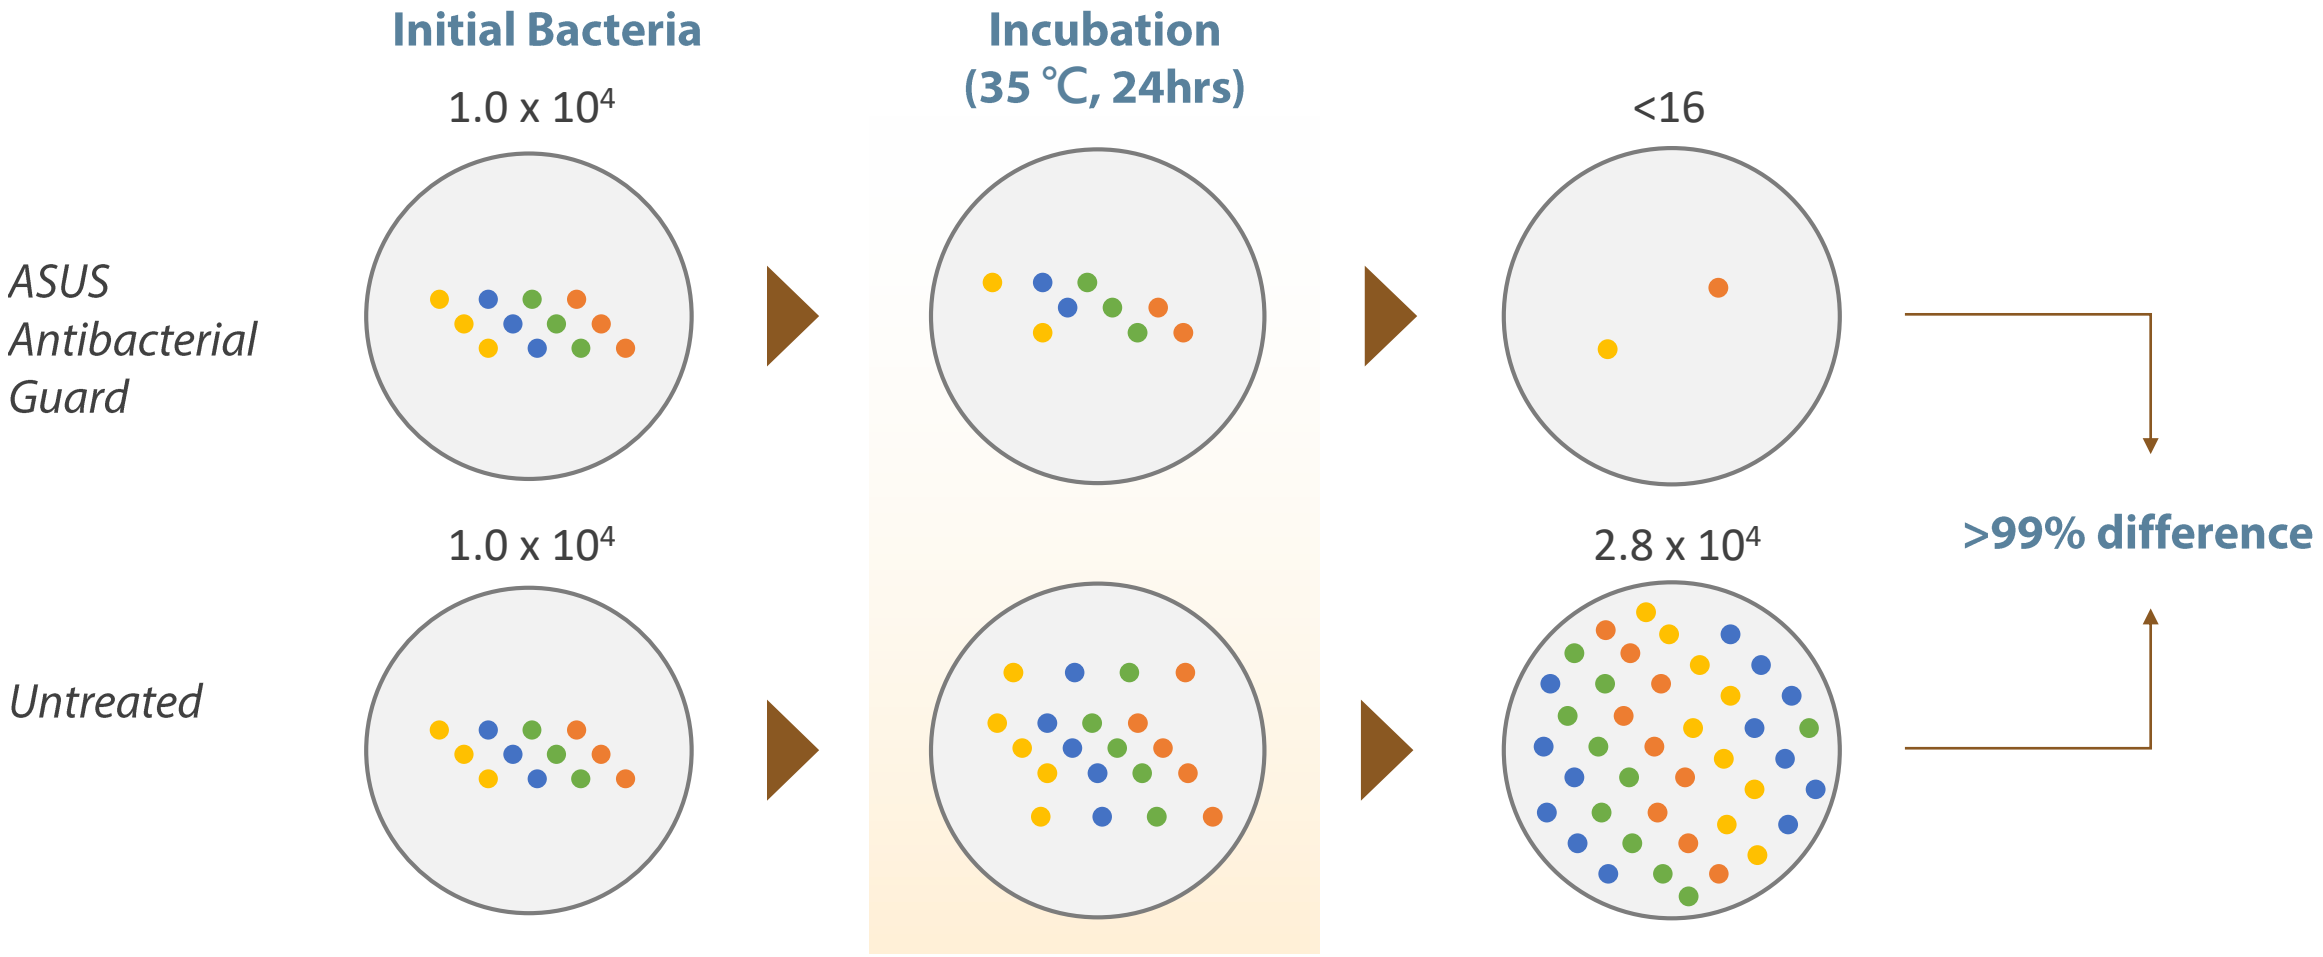
Tested

SIAA
ISO 22196
Anti Bacteria

1. Tested by an independent third-party laboratory according to the ISO 22196 standard (Measurement of antibacterial activity on plastics and other non-porous surfaces).
2. ISO 22196:2011 specifies a method of evaluating the antibacterial activity of antibacterial-treated plastics, and other non-porous, surfaces of products (including intermediate products).
3. The SIAA brand mark for inorganic antibacterial agents and kneading is borne on products that are under quality control and information disclosure by the guidelines of the Society of International sustaining growth for Antimicrobial Articles based on the results evaluated by the ISO22196 method.

Antibacterial Guard - ISO 22196 Tested

At an initial amount of 10,000 bacteria, with ASUS AntiBacterial Guard treatment, after 24hrs, the bacteria count is less than 16 pieces. If without the ASUS AntiBacterial Guard treatment, after 24 hours, the bacteria count will grow to 28,000 pieces. The difference is more than 99%.



1. Tested according to the ISO 22196 standard (measurement of antibacterial activity on plastics and other non-porous surfaces), using bacterial cultures that including Escherichia coli and Staphylococcus aureus, with an antibacterial activity result of R > 2. R = 2 indicates a 99% reduction in bacterial activity.

Connect cordlessly to multiple devices

With RF 2.4 GHz you'll enjoy fast, smooth and lag-free responses for uninterrupted productivity, while the Bluetooth mode provides easy wireless connectivity with any compatible device and maximizes battery life. ASUS SmartO Mouse is also able to pair with up to three Bluetooth devices, and switching between them is as simple as pressing a button — perfect for multitasking.
